Many women suffer in silence and drift along from bad to worse, knowing full well that they should have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probable examination of even their family physician. All letters are received, opened, read, and answered by women only.

This is a positive fact — not a mere statement — easily verified — thus has been established the eternal confidence between Mrs. Pinkham and the women of America, which has never been broken, and has induced more than 100,000 sufferers to write her for advice during the last few months.

Out of the vast volume of experience which she has to draw from it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Here are some of the cases we
